

INTRODUCTION

Ucecryl B 3009 is a high MFFT straight acrylic emulsion copolymer designed for use in paints. Coatings based on Ucecryl B 3009 exhibit a good weathering resistance and a good water repellency.

SUGGESTED APPLICATIONS

Ucecryl B 3009 is recommended for use in paints for fibre cement sheets.

PERFORMANCE HIGHLIGHTS

Ucecryl B 3009 is :
Free of alkylphenol ethoxylates (APEO)
Ammonia-free

UCECRYL B 3009 Product data

Determined per batch:

Appearance (D0201100)	milky liquid
Solids content (2 h at 105 °C) (D0001000)	46.5 - 48.5 %
Brookfield viscosity (At 25 °C - 50 rpm) (D0059500)	<= 200 mPa.s
pH measurement (D0002000)	7.5 - 8.5

Not continually determined :

MFFT (D0150000)	47 °C
--------------------	-------
